

I listen to a translator station, K-LOVE. I am able to listen to this national station when in my local area and when traveling in many cities. K-LOVE is a great service to me and to many other residents in my area. If K-LOVE were to be removed from the air and replaced by a LPFM station, there would be a void in the type of station programming that K-LOVE offers. This negative effect would occur in my local area and in several other areas where K-LOVE broadcasts. Please do not allow LPFM stations to take priority over translator stations such as K-LOVE.

Sincerely,

John Greaud
